

PREPARED FOR CRUZ CARPENTRY · JUNE 17, 2026

Your website, and three honest ways forward.

You hired me to build a home page for \$500. I went further — and built you a working business platform: a site that wins trust, quotes jobs on its own, and helps you hire the crew you told me was your real bottleneck. Here is everything that’s live, what it’s honestly worth, and three clear ways to make it yours. No surprises, no fine print.

PRICES HELD THROUGH

July 17, 2026

30 days from today

Everything that's live right now.

Real, working features on your site today — each at a fair market price any web studio would quote. You won't pay this; it's simply proof of what you're holding.

FEATURE — ALREADY LIVE & WORKING	FAIR VALUE
 Animated home page 7-chapter scroll "wood story," hero, services preview	\$500
 16 custom service pages + hub Cabinetry, stairs, doors, wine rooms... each SEO-ready	\$1,600
 43-photo gallery Filterable by service, full-screen lightbox viewer	\$500
 Instant Estimate engine + wizard Live lumber-market pricing, smart ranges, lead scoring	\$2,000
 Careers / hiring portal Multi-step apply, résumé & photo uploads, file-type security	\$850
 Customer accounts + booking Clients log in, track their project, request a visit	\$600
 Admin dashboard Lead CRM, applicant review, live pricing rate editor	\$1,200
 About · FAQ · Contact · Service Areas Plus an 18-city Colorado coverage map	\$600
 Full Google SEO Structured data, sitemap, social share cards	\$500
 Secure backend Supabase database, spam defense, rate-limiting, tests	\$650

Total fair market value of what's built

≈ \$9,000

You agreed to \$500 for the home page — and you've already paid a \$100 deposit. The rest I built going above and beyond. So the real question isn't "\$9,000 or not." It's simply: how much of this do you want to keep? Three clear answers are next.

Pick what fits. Keep what you want.

From a simple business card to the full platform — your call, no pressure. Every option is yours to own, with a \$100 deposit already credited.

Your problem isn't customers — it's crew.

When we met, this was the real story: the work is there and the customers are there. What's hard is finding good people to build it with you. The same website becomes your best recruiting tool — and I can run the whole thing for you.

BUILT IN · INCLUDED IN OPTIONS B & C

Your Careers Portal

- ✓ A "We're Hiring" page that sells the job
- ✓ Apply from a phone in two minutes
- ✓ Résumés & work photos land in your inbox
- ✓ Review & rate applicants in your dashboard (C)

FLAGSHIP GROWTH SERVICE · OPTIONAL

Managed Hiring

\$299/mo

- I post your openings to Indeed, Facebook & local boards
- I screen applicants — you only meet the good ones
- You stay focused on the work, not the hiring

MY 60-DAY PROMISE

Qualified applicants within 60 days, or your next month is free. You carry none of the risk — if it isn't working, you don't keep paying.

The math isn't close.

The full hiring service runs \$3,588 a year. One reliable carpenter lets you take on tens of thousands of dollars in work you're currently turning away — so it pays for itself many times over with a single good hire. That's why it's the one service that actually moves the needle.

INVOICE

Three ways to say yes.

No pressure and no lock-in. Pick the option that fits today — you can always step up later, and your deposit carries to whichever you choose.

1

Pick A, B or C
Text the letter to 720-708-0567, or sign below. The \$100 deposit is already credited.

2

I finish & launch it
I build, host on Vercel, and point your CustomCarpentryColorado.com domain — fast.

3

Live & cared for
It goes live, I keep it running for \$49/mo, and you add Managed Hiring whenever the crew problem bites.

MY HONEST RECOMMENDATION
Go with Option B — it's the whole public platform for \$1,800, the best balance of value and cost. If hiring is truly your #1 problem, Option C plus Managed Hiring is the package that fixes it: the admin CRM and Spanish site widen who can find and work for you.
